

## Streaking 1972

In the summer of 1972, running naked (Streaking) was a hype.  
A naked run of at least 1000 meters.  
Eight men participated.

We hadn't even left the street when the police arrived.  
We had a backpack with sports pants and a T-shirt with us  
in case anything happened.

Two were caught and the rest managed to escape through  
alleys where you quickly put on your clothes.  
It was dark so faces were unrecognizable.

The agreement was that if anyone got caught, we had agreed to do  
this in a youth club, and we couldn't see each other.

It is also the only time we did this as it was quite chilly in the  
evening.
